

Commendation for Solidus Engineer from Mission Planning SEIC

February 18, 2009

We're getting good feedback on your Solidus Engineer's performance from his Govt. customer—as I am for our other Solidus team members as well, at least those on my IPT. Perhaps you have others on the SEIC team that I can't address, but I can say for certain that the Platform Engineering IPT continues to be strengthened by our Solidus teammates.

John W. Trainor, PMP
Platform Engineering IPT
Mission Planning SEIC

Thanks! I wanted to make sure that you really know how much I appreciate what you are doing for us. It's people like you that do things even though it is really not your job that helps the guys and gals in the jets.

Edward K. Lewis
Technical Analyst
