21. Preventive maintenance (if applicable): Not Applicable
- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficient, and/or reduced pollutants): Not Applicable
- 22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at:
www.Section508.gov/: Not Applicable
23. Data Universal Number System (DUNS) number: 016098282
24. Notification regarding registration in System for Award Management (SAM) database:
Contractor registered and active in SAM
- 2.40% escalation awarded for current contract period years 1 - 5

Service Contract Labor Standards Matrix:

SCA/SCLS Matrix		
SCLS Eligible Contract Labor Category/Fixed Price Service	SCLS Equivalent Code Title	WD Number
Technical Writer	30463 Technical Writer III	2015-4532

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide)

Labor Category Descriptions

JOB TITLE: ADMINISTRATOR 1

Functional Responsibility: Duties involve support primarily focused on area of knowledge services to support engineering services, engineering studies and analyses including providing content-based (data, information, knowledge) organizational outputs (e.g., answers, facilitation) or physical products (i.e. graphics, summaries).

Minimum Education: 2 years of experience with a BA/BS

JOB TITLE: ADMINISTRATOR 2

Functional Responsibility: Duties involve support primarily focused on area of knowledge services to support engineering services, engineering studies and analyses including providing content-based (data, information, knowledge) organizational outputs (e.g., answers, facilitation) or physical products (i.e. graphics, summaries). Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 4 years of experience with a BA/BS

JOB TITLE: SYSTEMS ENGINEER 1

Functional Responsibility: Responsible for analyzing system requirements, and evaluating workflow, organization, and concept plans in the development and implementation of proposed solutions.

Minimum Education: 0 years of experience with a BS

JOB TITLE: SYSTEMS ENGINEER 2

Functional Responsibility: Responsible for analyzing system requirements, and evaluating workflow, organization, and plans in development and implementation of proposed solutions. Tasks may also include systems architecture development, requirements development and concept development.

Minimum Education: 4 years of experience with a BS

JOB TITLE: SYSTEMS ENGINEER 3

Functional Responsibility: Systems Engineering Services during programmatic design and development phases of a program including development of Program System Level Requirements, requirements allocation and tracking, Requirements Compliance Assessment, SW and HW requirements development, and Cyber Risk Management Framework Requirements Analysis and Flow-down. Includes systems architecture and concept development. Tasks may also include support to trade studies, algorithm development, modeling, simulation development and system level analysis.

Minimum Education: 8 years of experience with a BS

JOB TITLE: SYSTEMS ENGINEER 4

Functional Responsibility: Systems Engineering Services during programmatic design and development phases of a program including development of Program System Level Requirements, requirements allocation and tracking, Requirements Compliance Assessment, SW and HW requirements development, and Cyber Risk Management Framework Requirements Analysis and Flow-down. Includes systems architecture and concept development. Tasks may also include support to trade studies, algorithm development, modeling, simulation development and system level analysis and support for requirements updates. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 10 years of experience with a BS

JOB TITLE: SYSTEMS ENGINEER 5

Functional Responsibility: Management direction of engineers during programmatic design and development phases of a program including development of Program System Level Requirements, requirements allocation and tracking, Requirements Compliance Assessment, SW and HW requirements development, Cyber Risk Management Framework Requirements Analysis and Flow-down. Includes systems architecture and concept development. Tasks may also include support to trade studies, algorithm development, modeling, simulation development and system level analysis and support to requirements updates. Expertise at a level to drive program decisions. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 15 years of experience with a BS

JOB TITLE: ENGINEER 1

Functional Responsibility: Duties typically involve performing engineering services that may include engineering studies and analyses, requirements development and concept development.

Minimum Education: 1 year of experience with a BS

JOB TITLE: ENGINEER 2

Functional Responsibility: Duties typically involve performing engineering services that may include but are not limited to the following: engineering studies and analyses; technology planning; systems architecture development; requirements development and concept development.

Minimum Education: 5 years of experience with a BS

JOB TITLE: ENGINEER 3

Functional Responsibility: Duties typically involve performing engineering services that may include but are not limited to the following: engineering studies and analyses; technology planning; systems architecture development; requirements development; concept development; systems design; system development and integration; test and evaluation; systems operation; control of systems and components; modeling and simulation; configuration management; and systems acquisition and life-cycle management in compliance with current Industry and Government practices. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 8 years of experience with an MS

JOB TITLE: TECHNICAL WRITER

Functional Responsibility: Services performed include, but are not limited to, assisting in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents in support of analysis efforts.

Minimum Education: 2 years of experience with a BS

JOB TITLE: PROJECT/PROGRAM MANAGER 1

Functional Responsibility: Services performed, but not limited to analysis of mission, program goals and objectives, requirements analysis and concept development.

Minimum Education: 3 years of experience with an AS

JOB TITLE: PROJECT/PROGRAM MANAGER 2

Functional Responsibility: Services performed, but not limited to, analysis of mission, program goals and objectives, requirements analysis and concept development. Includes performing day-to-day management of overall program support. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 5 years of experience with a BS

JOB TITLE: PROJECT/PROGRAM MANAGER 3

Functional Responsibility: Services performed, but not limited to include performing day-to-day management of overall program support, possibly involving multiple projects and groups of personnel at multiple locations. Typical tasks include, but are not limited to, analysis of mission, program goals and objectives, program evaluations, analysis of program effectiveness, requirements analysis, organizational performance assessment and special studies and analysis. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 8 years of experience with a BS

JOB TITLE: PROJECT/PROGRAM MANAGER 4

Functional Responsibility: Responsibilities include supervising less experienced project/program managers, performing tasks that include, but are not limited to, requirements analysis, trade studies, concept development, analyses and evaluation of engineering projects and related services. Provides expertise in organizational performance assessment, special studies and analysis and technology transfer/insertion and management of overall program support. Results will be presented and requires strong oral and written communications skills. Must be able to present findings/results to internal and external organizations.

Minimum Education: 6 years of experience with an MS
